OSHA AWARENESS—FALL PROTECTION

This course has been approved for 16 licenses/certifications which are administered by the Wisconsin Department of Safety and Professional Services-Safety and Buildings Division.

Beginner Electrician	Manufactured Home Installer
Commercial Plumbing Inspector	Master Electrician
Cross Connection Control Tester	Master Plumber
Dwelling Contractor Qualifier	Master Plumber-Restricted Appliance
Industrial Journeyman Electrician	Residential Journeyman Electrician
Journeyman Electrician	Residential Master Electrician
Journeyman Plumber	UDC-Plumbing Inspector
Journeyman Plumber-Restricted Appliance	Utility Contractor

On December 16, 2010 OSHA issued *Compliance Guidance for Residential Construction* which rescinded the *Interim Fall Protection Compliance Guidelines for Residential Construction*. This compliance directive from OSHA covers all aspects of individuals involved in the construction trades, including: Carpenters, Electricians, Heating and Ventilation Installers, Plumbers, Sprinkler Installers, Elevator Mechanics and Inspectors.

This course is intended to assist employers and employees in their efforts to comply with the current OSHA Fall Protection Requirements for residential construction work, as falls are the leading cause of death for workers engaged in construction.

This course is a distance learning or e-learning course, which allows the attendee to complete the course on their time schedule.

MAIN TOPICS COVERED

An Illustrated Commentary (CFR 1926) OSHA Subpart M-Fall Protection

OSHA Introduction

WisCon: Informational Sheet on the Onsite Safety and Health Consultation Service offered by the Wisconsin State Laboratory of Hygiene. (Included in the Introduction section)

OSHA Guidance Document Fall Protection in Residential Construction

OSHA Fact Sheets

OSHA Residential Fall Protection Program Update

Exam

Sixty questions related to the Instructional/Reference Materials are used to test the attendee on their comprehension of the materials. A 70% score will need to be attained in order to pass this course.

The course attendee will receive the materials by one of the following delivery methods:

Online: The attendee will receive an email with the instructions and a link to the online course. The Reference/Instructional Materials and Exam will be available after registration is complete. The exam can be completed from the computer screen by use of “radio buttons”. Answers are automatically saved. Reentry is done by the use of a personalized “resume code”. Once the exam has been completed it is submitted. Grading will be done automatically by the computer program. The score and correct and incorrect answers are shown immediately.

Email: All materials are sent via email in PDF form to the attendees email address. The PDF documents can be saved to a file on the computer or they can be printed out. A bubble answer sheet needs to be printed; filled in and returned to us for grading.

Compact Disc: All PDF files are burned to a compact disc and sent to the attendee. The attendee has a choice of saving the PDF's to his/her computer desktop, just opening the files and working off the CD or printing the materials. A bubble answer sheet needs to be printed; filled in and returned to us for grading.

Printed: The Instructional/Reference Materials and Exam is sent in booklet form to the attendees' home or office. The bubble answer sheet is completed and returned to us for grading.
