This is 3 part course worth 12 hours of continuing education.

Course 9804 - This section of the course is designed to familiarize contractors on specific laws dealing with home improvement contracts. The course covers administrative law from the Wisconsin Department of Agriculture and Consumer Protection.

Topics covered are: Prohibited trade practices, building permits, warranties, home improvement contract requirements, preservation of buyer's claims and defenses, contract

cancellation, return of payments, contract compliance, theft by contractor, theft by fraud, energy savings and safety claims, and basement waterproofing transactions.

Course 12858 - This course is intended to assist employers and employees in their efforts to comply with the current OSHA scaffold requirements for construction work, as falls are the leading cause of death for workers engaged in residential construction.

Course 13875 - This course is an overview of OSHA's Lead Standards for the construction industry. Employers and employees will benefit from knowing the risks associated with lead in the construction industry and how to minimize the dangers.
