This 12 Hour course [SPS 316 & 2017 NEC] is designed to familiarize Electrical workers with a portion of the National Electrical Code.

Part 1 consists of 90 multiple choice questions covering the administration and enforcement; general requirements; changes, additions or omissions to the NEC; and electrical inspection. The answers can be found in SPS 316 (included as review materials).

Part 2 consists of 90 multiple choice questions covering the introduction, definitions and requirements for electrical installations, Article 220: Wiring and Protection, Outside Branch Circuits and Feeders (through Article 220.103). The answers can be found in the [2017] NEC code book (Not Included).

Part 3 consists of 180 multiple choice questions covering Article 220: Wiring and Protection, Outside Branch Circuits and Feeders (through Article 220.103). The answers can be found in the [2017] NEC code book (Not Included).

This Course is approved for the following electrical Registrations/Certifications or Licenses:

Commercial Electrical Inspector	12 Hours of Continuing Education
Industrial Journeyman Electrician	12 Hours of Continuing Education
