Journeyman Electrician	Utility Contractor
Journeyman Plumber	

On December 16, 2010 OSHA issued **Compliance Guidance for Residential Construction** which rescinded the **Interim Fall Protection Compliance Guidelines for Residential Construction**. ***Scaffolding is one component of the residential construction fall hazard regulations.*** This compliance directive from OSHA covers all aspects of individuals involved in the construction trades, including: Carpenters, Electricians, Heating and Ventilation Installers, Plumbers, Sprinkler Installers, Elevator Mechanics and Inspectors.

This course is intended to assist employers and employees in their efforts to comply with the current OSHA scaffold requirements for construction work, as falls are the leading cause of death for workers engaged in residential construction.

This course is a distance learning or e-learning course, which allows the attendee to complete the course on their time schedule.

MAIN TOPICS COVERED

Scaffold Introduction

Ladders and Stairways

Stair Towers

Ramps and Walkways

Scaffold Use in the Construction Industry

General Requirements for Scaffolds

Criteria for Suspended Scaffolds

Access Requirements
